

CORPORATE MEMBERSHIP PROGRAM

Community Service Opportunities

A passion for community service is important in every Rotarian and every corporate partner. Grove City Rotary has been serving our core community for more than 20 years. We are a proven vehicle providing support and service to Grove City and other locales throughout the world.

Corporate Membership

Grove City Rotary's program consists of at least two management individuals within the same company. A Senior Officer (the Chairman, CEO, President or COO) becomes an Executive Member; attending Rotary breakfast and functions as their schedule permits. At least one other individual(s) becomes an Active Member with regular participation in the Club's business, committees and activities.

The Executive Member selects the candidate(s) in his/her organization to fill the Active membership role for the corporation, subject to the candidate satisfying the criteria for membership of all Rotarians. This program allows the Executive Member to gain all of the benefits of a Rotary membership, yet work participation into their schedule as they are able.

Your corporate logo will appear in Grove City Rotary's monthly newsletter and on our website.
